

MYOB Premier

Multi-user, Multi-currency

Do you want more than one person to be able to work on your data at the same time? Do you deal in foreign currency, have offshore accounts or send invoices overseas? Do you need to keep track of your time for billing purposes? Do you want to be able to use the Internet to process payments and import bank statements? Do you need control of your stock? If you've said yes to any of these questions then the answer is MYOB Premier – the ideal and complete software solution for handling foreign currency, time billing in a multi-user environment.

You don't need to be an accountant to use it. MYOB Premier is simple to use and in plain English. The multi-award winning MYOB flow-chart design guides you at every step

Have as many people as you want working on the same data file, at the same time!	MYOB Premier comes with a two-user licence, but can be upgraded for more users as your business grows. Just think. One person can be entering invoices, while two others are depositing customer payments. And if you need more than three people in at once, or as you add employees, you can easily add them to the workflow.
Includes MYOB Payroll	Bundled with MYOB's top-of-the-line payroll management software – fully featured and easy-to-use.
Advanced stock control	Integrated stock control with detailed inventory analysis reports, pricing variables and up-to-the-minute information mean you can expect greater accountability of your valuable stock.
Wide range of electronic payment options	You can process a wide selection of payments electronically. There's also a Prepare Electronic Payment feature that groups your payments into one account for easier bank reconciliation.
Powerful cross currency functionality	Being able to enter transactions in foreign currencies gives you the freedom to deal easily with overseas traders including accounting for the sale and purchase of goods and services in foreign currencies.
